LETTER OF TRANSMITTAL.

OFFICE OF INSPECTOR OF FACTORIES AND WORKSHOPS,
NEW ERA BUILDING, CHICAGO, ILL., Dec. 15, 1901.

To His Excellency, HON. RICHARD YATES, *Governor of Illinois.*

DEAR SIR:—I have the honor to submit herewith the ninth annual report of the Inspectors of Factories and Workshops for the year ending Dec. 15, 1901.

Very respectfully yours,

LOUIS ARRINGTON,
Inspector of Factories and Workshops.

530234

FACTORY INSPECTOR'S REPORT.

To the Hon. Richard Yates, *Governor of the State of Illinois.*

Governor:—In compliance with section nine (9) of the act erecting the factory and workshop inspector's office, I have the honor to lay before you in behalf of this depa:tment the ninth annual report of the work done, with such recommendations of additional legislation as my experience in enforcing the law has shown to be urgently required.

I would respectfully recommend the enactment of the law relating to bakeries and confectioneries as recommended in my report of 1899, pages 13-14.

I would also respectfully recommend the enactment of the law relating to wearing apparel and cigars as recommended in my report of 1899, pages 14-15.

It is the duty of the factory inspectors to inspect bakeries and confectioneries for child labor, but the law gives us no control over the sanitary conditions of those places which we find are equal to if not worse than those that exist in the sweatshops.

The act of 1893, relating to the manufacture of clothing, wearing apparel and other articles in this State, should be so amended that all persons engaged in this industry should be compelled to take out a license. New York, Pennsylvania and Massachusetts find that this is the only way whereby the sweatshops can be properly controlled and kept in a good sanitary condition.

Section 2 of the act to regulate the employment of children should be amended. We find quite a number of affidavits made by parents for children who are under the age of 13 years. There is no doubt but what there are a great number of children working in Chicago, who are not 14 years of age, while the affidavits of their parents show that they are over 14 years of age. We have several affidavits in our possession showing the children to be over 14 years of age, but on consulting the church records we find all of these children to be under the age of 14 years and some of them were not over 12 years of age when the affidavit of the parent was made. We took a case before the grand jury but failed to get an indictment on the grounds that the penalty was too severe for the offense. I doubt if a jury could be secured that would indict any one for perjury in making a false affidavit for a child under 14 years of age. The law should be so amended as to impose a fine or jail sentence or both; said fine

should not be less than $50 nor more than $100, or imprisonment in the county jail not less than 30 days for each offense, or both fine and imprisonment in the discretion of the court.

We find that notary publics use very little, if any, discretion in issuing affidavits for children between 14 and 16 years of age. It appears that all they take into consideration is the 25 cents they receive for issuing the affidavit. I have called the attention of several notaries to this matter. Some have replied that they did not know or understand the law, while others made no reply. A notary that does not know or understand the law should not be permitted to issue affidavits. It is the duty of a notary to ascertain the correct age of the child before he or she issues an affidavit, and I would recommend that in the future when it is shown that an affidavit has been issued for a child under the age of 14 years, that the commission of the notary issuing said affidavit be revoked. I would ask careful consideration of this matter.

This has been the most prosperous year since the organization of the department. Many of the old establishments have enlarged their plants, and new enterprises have been started in almost every section of the State, as shown by the statistical part of this report. As you will see by the several annual reports, the work is increasing annually and it is impossible for the present force of deputies to properly perform the work. It takes eight deputies three months to inspect the sweatshops once. These shops should be inspected at least twice annually. All places where children are employed should have two inspections each year, but it is utterly impossible to accomplish this with the present number of deputies. Illinois is the fourth State in factory inspection in the Union, and we have 16 less inspectors than any other one of the leading States. New York has 50, Massachusetts 30, Pennsylvania 26, and I would therefore recommend that the force be increased at least five.

Very respectfully yours,

LOUIS ARRINGTON.

The following table will show the result of inspections for the year 1901:

Total number of places inspected		17,219
